

MISS JEAN GARRETTE
With "Somewhere in France," the War Play of the day, which comes to the Lyric Theatre for One Night only, Monday, Oct. 9th. Special Matinee at 2.30—Bargain Prices.

THE Red Deer Creamery

Satisfied patrons are the best advertisement.

Bring or ship your cream to THE RED DEER CREAMERY, where you will receive correct weight and test, highest price, and payments made promptly every two weeks.

Bring your cream often, so as to get the highest grade.

We are now in a position to buy Live Poultry at the following prices:

No. 1 Chicken	15c. lb.
No. 1 Fowl	12c. lb.
No. 1 Ducks	12c. lb.

Allies Are Forcing Great Wedge Into German Line

London, Sept. 27.—The twenty-mile battle line running from the Ancre to the Somme is rapidly being transformed by the great offensive of the allied armies into an irregular triangular wedge in the German line, with bases respectively in front of Thiepval and west of Peronne, and the point projecting across the Bethune road and into the St. Pierre Vaast wood.

German trenches on a front of 2,000 yards to the north of Fiers, and a German redoubt to the north-east of Thiepval, were captured by the British during the fighting on Wednesday north of the Somme, according to the official communication issued shortly before midnight.

More than 1,500 rifles, four flamethrowers, and many thousands of rounds of artillery ammunition and grenades were taken at Cambes, where the allies also made large captures of material, the report continues.

The prisoners taken in the last two days' fighting bring the total of the operations of the last fortnight to 10,000.

Two enemy aeroplanes and two kite balloons were destroyed yesterday. Two of our machines are missing.

Paris, Sept. 27.—A strong German counter attack on the new French positions from Bouchemmes to the south of the Bois l'Abbe farm were repulsed with heavy losses.

According to the official statement issued by the war office to-night, the French extended their position east and southeast of Rancourt and penetrated St. Pierre Vaast wood.

BRITISH BOMBING ACTIVITY

London, Sept. 27.—A British official communication issued this evening tells of the bombing of German positions by air craft as follows:

"Attacks were carried out this morning on enemy airship sheds at Evere, Bieren, St. Agathe and at

Etterbeek, near Brussels, by naval aeroplanes. Bombs were observed to explode on the sheds, which appeared to be hit. The bombs dropped at Evere struck buildings, presumably ammunition stores, in close proximity to the sheds. Heavy explosions were heard and large volumes of smoke were observed. All the machines returned safely."

Departmental Crop Report

Ottawa, Sept. 11, 1916.—In a bulletin issued to-day, the Census and Statistics Office publishes the first or preliminary estimate of the yield of the principal grain crops of Canada in 1916 (wheat, rye, barley, oats and flaxseed), as well as a report on the condition of all field crops at the end of August.

EFFECTS OF RUST DURING AUGUST

Correspondents report that grain crops in Manitoba and Saskatchewan, which were highly promising at the end of July, have been so seriously affected by rust and hot winds during August, that large areas of grain will either fail to produce any crop at all, or have been sent green, whilst the yield of grain from the whole of Manitoba and Saskatchewan is badly affected by rust, the conditions are distinctly worse in the southern than they are in the northern parts of these provinces. In Alberta, rust, though present to a certain extent, has not proved destructive, and the grain crops continue promising.

Protests however of August 11 and against late the month did considerable damage to grain crops in the province.

YIELD OF PRINCIPAL CEREALS, 1916

It is estimated from the reports of correspondents that of the areas sown about 13.7 per cent of spring wheat, 8 per cent of oats, 5 per cent of barley and 1.8 per cent of flax will fail to produce any crop of grain.

The areas sown, however, 3 per cent of wheat, 5 per cent of oats and 1 per cent of barley have been cut for green feed or turned into hay.

These percentages represent deductions from the areas sown of 1,432,000 acres of spring wheat from 10,468,000 acres of barley, 10,468,000 acres of oats and 10,468,000 acres of flax.

The area of wheat this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of oats this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of barley this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. The average yield per acre is 29 bushels as compared with 29 bushels last year and 15.67 bushels in 1914. The estimate for the total yield of 341,602,000 bushels of wheat, 9,795,000 acres, as against 520,000,000 bushels in 1915 and 520,000,000 bushels in 1914.

The area of flax this year will be 10,468,000 acres, as compared with 10,468,000 acres in 1915, and 10,468,000 acres in 1914. Germany Prepares For Big Retreat

An increasing frankness in the German official communications with regard to the situation upon the Western front has not passed without notice by neutral observers. It is interpreted to mean that the German War Office is gently breaking the news to the German people, and preparing them for the announcement of a withdrawal to new positions many miles in the rear of the present front, perhaps, indeed, the evacuation of the most of France and Belgium. Most military commentators agree that it shall shorten her lines unless she is prepared to face disaster. The recent advances upon the Western front have had a double advantage for the Allies. They have driven the Germans from long-prepared positions, and have regained soil for France, and they have had the effect of actually lengthening the German lines. At the beginning of the drive these lines were, generally speaking, straight lines; they are being forced into curved lines, and curved lines being longer, require greater number of men to defend. Where is Germany to get the men?

MORE MEN NEEDED

It is calculated by some statisticians that since February, Germany and her allies have lost 1,500,000 men, of whom 500,000 are prisoners. Moreover, Roumania's entrance to the war has made an extra demand for at least 250,000 more men on the part of the Central Powers. Nobody appears to believe that it is possible for Germany to find these men either in her own population or in the populations of Austria, Bulgaria or Turkey. In that case there is nothing left but a shortening of the lines, a withdrawal from positions whose defence would require say a million men to positions which could be defended by three-quarters of a million men. If Germany is confronted with the necessity of thus tightening up her defences there can be no question as to which front she will choose for carrying out this operation. Frank Simonds says that to retire in the East would mean a lengthening, not a shortening of her lines unless she retired to her own frontiers and risked a new Cossack invasion. This is the nature of the country, for the Pripiat marshes, where she now rests, supply a large area that can be held by comparatively few forces.

MUST STICK IN BALKANS

She might retire from the Balkans, leaving Bulgaria and Turkey to their fate, and thus practically announcing that the war is over; but this would mean the loss of communication with the Turk, the eventual forcing of the Hardanles, and it would mean that Bulgaria would promptly change her allegiance, make the best terms possible with the Entente Allies and fall upon Turkey, if not upon Austria. There remains, then, only the Western front, and here, as pointed out, the daily operations of the French and British are having the effect of lengthening the German lines, already worn dangerously thin. Assuming the necessity of a withdrawal, experts are divided as to its extent. Some say that it will mean merely the abandonment of the "Noyon" "elbow" or salient, and that the new line will run fairly even from Douai to Lang Peronne, Chaulnes, Roye and Ham would thus be surrendered.

POSSIBLE NEW LINES

The question is if this shortening would be sufficient, and if the Allies would not then be able to repeat the tactics they have been following along the Somme, and once more push into the lines, lengthening them as they advance. Should the German General Staff decide upon a more drastic operation it is calculated that the armies may be withdrawn as far as Lille on the north, running thence south-east to Charleville, thence tending further to the south to the

Zeppelin Is Brought Down

Airship Fleet Makes Attacks on England Last Night

London, Oct. 2.—Another Zeppelin raid against London and the east coast of England is in progress. An airship is reported to have been brought down in flames north of London, according to the official statement issued shortly after midnight. The statement reads: "A number of hostile airships crossed the east coast between nine and midnight. A few bombs were dropped near the coast, but no damage is yet reported. The raid is still in progress and smaller ships are in the vicinity of the coast, where some guns have been in action. An airship is reported brought down in flames north of London. Great crowds cheered the spectacle of the burning Zeppelin as it fell in the London district. The great flare from the burning aircraft was visible for a long distance."

Alberta Farmers' Live Stock Bulletin

Calgary, Sept. 30, '16
Cattle. Prices for best continued good all the week compared with outside markets, which all went lower. About \$6.00 was the extreme top paid for choice steers. Choice heifers \$5.00, and choice cows \$5.00. Common cows \$5.00, stock and feeder cattle of every class found ready clearance, \$6.25 ruling strong for well bred feeders, light yearlings which sold by the head must have realized \$7.00 per 100 lbs. anyway, the prices they were dolared at.
Hogs. We sold our hogs throughout the week as high as \$11.35, and our Thursday's hogs for \$11. Due to no Eastern demand and lower prices at Montreal and Toronto, packers only offered \$10.75 Friday, and were not very keen buyers even at these prices. It looks like hogs are to go still lower.
Sheep. There was little change in the market for sheep, with light arrivals. We could sell spring lambs and yearling wethers at \$9.00 and \$8.50 per 100 lbs. respectively. Prices corresponding week a year ago on steers, hogs, and lambs, \$5.75, \$8.00, and \$7.50 respectively. We handled 16 p.c. of the cattle and over 31 p.c. of the hogs sold on the market.
Steers fat, common to choice butcher \$6.00-\$6.50
Heifers, common to choice heavy butcher \$5.25-\$5.50

HAVE YOU

tried Zam-Buk for those disgusting pimples and blackheads? Others have used it with great success, and you are confident you will not be disappointed.

Mr. J. B. Wagner of New Canada, N.S., writes: "For a considerable time I suffered with pimples and blackheads on my face. They were very unsightly and I suffered a good deal. Someone recommended Zam-Buk and I commenced using it. To my delight the pimples and blackheads gradually began to disappear, until now my face is clean, clear and healthy. I am, indeed, grateful for what Zam-Buk has done for me. I should like to tell all others who are troubled as I was, to know of this wonderful ointment."

Zam-Buk is just as good for eczema, skin rheum, ulcers, abscesses, winter itching, blood-poisoning, boils, pimples, burns, cuts, scalds, etc. 50c. box, 3 for \$1.25, all druggists or Zam-Buk Co., Toronto. Send 1c. stamp for postage on free trial box.

Interesting Relic of War

Helmet Worn by Bavarian Officer Used in "Somewhere in France."

An interesting relic of the present great European conflict is being carried as a "prop," by the "Somewhere in France" Company, which comes to the Lyric Theatre for one night only, Monday, October 9. This little memento is a helmet which was worn by one "Bornholdt" an Officer of one of the Bavarian regiments, which was fighting the battles of the Kaiser in France, and was picked up by Baron H. S. DeMaussalane, a returned French war veteran, who in turn presented it to Mr. E. H. Benson, Manager of the "Somewhere in France" Company, who it is needless to say treasures this "flun" relic on account of its history.

Countless other war implements and relics are carried by the Company which are used to enliven the realistic trench and battle scene in second act. Special Bargain Matinee on Thanksgiving Day at 2.30 p.m.

Shaughnessy Has Great Faith in West

Montreal, Sept. 27.—Baron Shaughnessy, president of the Canadian Pacific Railway, returned yesterday from his tour to the Pacific Coast, on which he was accompanied by a number of directors. The president said that he returned full of faith in the future of the country, and especially of the west. "My faith has been strengthened," he said, "and all the party returned with the most agreeable and optimistic impression in respect to the development and prosperity of the West."

"I have never thought of retiring, but if the public want me to, why, that would be another matter," said Lord Shaughnessy, smilingly, in answer to the question if he had intention of retiring, as has again been rumored.

Recent Fighting Shows Allies Have Upper Hand

London, Sept. 27.—A despatch from Reuter's correspondent at British headquarters in Northern France says:

"The recent fighting illustrates how completely our army now has the upper hand. We are advancing with the deliberate calculation which is only possible to the side of irresistible strength. The German army in the west is now fighting a slow rearguard action. The enemy gunfire also has been considerably less in volume than we had reason to anticipate from past experience. I hear that a patrol, even the word cavalry is mentioned, has been forward into positions where, down to a very few days ago, no horseman could possibly have ventured."

Famous German Aviator Killed

Berlin, via London, Sept. 28.—Lt. Wintgens, who, next to Captain Boelcke, was Germany's most famous fighting aviator, has been killed in an engagement with Entente Allies aviators. He was buried, according to his own wish, in the spot where he fell.

Lieut. Wintgens, according to a received from Berlin September 16, had shot down his fourteenth Entente aeroplane on Somme front. In June last Wintgens was awarded the Order of Merit by Emperor William for the aerial service he had performed.

Hindenburg Sees Loss of Allies in Balkan Defeats

Mercilessly Driving Austrians in Effort to Check Russian Advance

London, Sept. 28.—The Daily Chronicle's Petrograd correspondent sends the following, under date of Monday:

"There has been a good deal of discussion as to Hindenburg's new strategic plans. It is said he attaches for the present more importance to the eastern than the western front, and that he is even prepared to go to any length, rather than permit a further Russian advance and defeat in the Balkans, which would mean the loss to Germany of the alliance of Bulgaria and Turkey."

"This may or may not be true, but so far as the Russian front is concerned, the exact nature of Hindenburg's plan can only be gradually pieced together from those now facts in the disposition of the armies of the Central Powers, which have now begun to emerge with greater distinctness. It is obvious that Hindenburg is making an intense and deliberate effort to stay Brusiloff's advance. His new power enables him to take direct advantage of his own personal and intimate experience of the Russian front, and his strong hand is seen in measures now being taken to brace up the tottering Austrian army."

"Generally speaking, these measures amount to the final destruction of Austrian military independence, and consist in forcible injection into the Austrian organization of German methods and staying powers. This operation is being carried out mercilessly. Captive Austrian officers say their people write under it, but the military effect is certainly to increase Brusiloff's temporary difficulties, though the net result will be simply to prolong the agony for the Central Powers, without any prospect of averting final defeat."

816 Names in Latest Lists

Casualties Among Canadians Issued Officially Continue To Be Very Heavy

Bearing out the statement given publicly late last week that the Canadians were in the van of the attack at Courcellette and that they defended their gains against the German counter attacks without ceasing, the cost, is the lengthy casualty lists which are given out daily by the department of militia. Sunday afternoon and Sunday night lists were especially heavy. Since Saturday a total of 816 are reported, of whom no less than 280 have made the supreme sacrifice while 497 are down with wounds.

Dead men again figure prominently in the lists, this city sharing its proud grief with every other part of Canada.

The casualties reported over the week end are divided as follows:

Killed in action	212
Died of wounds	58
Died	10
Wounded	497
Missing	25
Missing	14
	816

C.P.R. Give Farmers Special Rates

Farmers who desire to utilize their surplus cattle feed during the coming winter for fattening purposes are offered special inducements by the Canadian Pacific railway to add to their herds by a reduction in freight rates of the company on cattle returned from Calgary, Edmonton, Winnipeg, Moose Jaw or Saskatoon to country points.

Canadian Pacific railway officials announce that the reduced rates will become effective immediately and will apply to cattle intended for breeding, finishing or feeding. This reduced rate is intended as an inducement on account of the fact that there is an unusual amount of grain in the country this year that will not go to mill and farmers will find it very profitable to use this for the preparation of stock for market.

These rates apply to all stations in Manitoba, Saskatchewan and Alberta except stations west of Canmore in Alberta, and only on cattle returned to farmers for breeding, finishing or feeding on production of signed certificate, particulars of which will be furnished by the railway agent bearing the signature of the local secretary of the Grain Growers Association and that of the Provincial Secretary of the same association.

MORTGAGE SALE BY PRIVATE TENDER

Pursuant to the directions of the Registrar, tenders will be received by the undersigned up to the 15th day of November, 1916 for the purchase of the S.E. 36, Tp. 36, Rge. 4, West 5th M. in the Province of Alberta, situated about 25 miles from Red Deer. For further particulars apply to McDONALD & TIGHE, Vendors Solicitors, Edmonton.

When Pigs Were Cheap

IN your grandfather's day---ask him about it---you could buy a dressed hog for three dollars; a nice big pig. And a live pig would cost you no more.

Everything in those bygone days was cheap---that is, the things of common use.

Clothes, boots, milk, bread, beefsteak, eggs, butter, lumber, farm labor, domestic servants---they all cost a good deal less than they do today.

It cost less to live---and less to be born---and less to die fifty years ago than today.

And it cost much less to publish a country weekly fifty years ago than it does today---very much less.

Yet you paid --- or your grandfather did --- just a dollar a year---the same as you are paying today.

But the dollar rate must yield to the pressure of necessity. We must do what we ought to have done years ago---raise the price of "The News" to \$1.50. The tremendously increased costs of paper, ink, supplies, and the more-than-doubled cost of living have made us "furiously to think." And so, on and after October 15th the price of "The News" will be \$1.50 a year to Canadian and British post offices; United States \$2.00 a year; Army Post Office, London, England, \$2.50 a year.

Good Readers All

If you were in our place, and knew all we know about the higher costs of publishing, you would wonder how we didn't make the advance long ago. We trust you to meet the new rate with a smile. Not for 50 cents a year will you say "Stop my paper."

BUT IT IS OUR DUTY TO LET YOU KNOW NOW WHAT'S COMING

GREEK GOVERNMENT HAS DECIDED TO CO-OPERATE WITH ENTENTE ALLIES

London, September 28.—The council of Greek ministers has decided in collaboration with the entente to have been the outcome of a conference between the king, royal generals and the king's closest advisers, during which they decided a promise to sign a decree for a general mobilization before former premier M. Venizelos, who landed at Cephalonia, Crete, Tuesday morning, was given an enthusiastic reception, being escorted by ten thousand Cretans through beflagged streets. Replied

Germans Are Quietly Evacuating Ground Before British at Night

Enemy's Lines Have Been Forced Back Into An Arc of Six Miles in Depth

Paris, Sept. 27, via London, Sept. 28.—With the capture of Comblès the German lines have been forced back into an arc of more than six miles deep containing forty-four villages and an area of 117 square miles. As the arc increases in depth the Germans will be forced to bring up more and more troops to strengthen their extending front. Until the last moment the German commander of Comblès seems to have thought the position could be held, despite the encircling movement of the French and British, or the vast stores captured would have been saved. Comblès now resembles a veritable shambles.

The German supreme command had given orders that Comblès must hold out to the last. For that reason two battalions had been left with a contingent of expert machine gunners. The French command having got wind of this, ordered a fresh bombardment of the town. This final bombardment was most effective, as at last the guns had got the direct range of the town which lay in a hollow between two hills. The German lines were broken and the allied advance to the neighboring positions. Except the machine gunners, who were killed in their nests, the rest of the garrison offered little resistance, and were for the most part taken prisoner or taken by hunger and fatigue.

ALLIES ARE FORCING THE PACE FOR ENEMY WHEN HE MOST NEEDS BREATHING SPELL

Paris, Sept. 27, via London, Sept. 28.—The last German communication to the allies, the fall of Comblès and Thiepval, which admitted in tragic tone the vast material resources of the enemy, was a clear indication that the German command was in a very bad way.

Ridgewood

The fine weather of the past couple of weeks has done considerable towards improving crop conditions and the farmers' outlook has given place to a more optimistic smile. Grain cutting is well on to completion and the samples taken are quite up to a better standard. We wish again to draw special attention to the Meridian line which remains in that impassable state when so much auto traffic and general traffic is directed over this road. The Council and Government should join hands in such a way that financial assistance might be rendered.

Our Red Cross ladies have again handled a neat case of a lady of \$20.25 being the proceeds of the refreshment booth at the 14th St. picnic, conducted by Mr. Alex Kennedy.

Mr. Frank Waste returned last week from a trip to Oregon, U.S.A. and is impressed with the opinion that he may eventually make his home in that state.

Mrs. James Bowden left for her home in Butte, Montana, on Monday after spending a couple of weeks here visiting her sister, Mrs. Mayberry.

We are pleased to notice that Mr. O. Stinson's health is sufficiently improved for him to return home this week.

Mrs. Angus Martin Jr., and Miss L. Martin were visiting friends in the Leslieville district last week.

Leslieville

The death of Mrs. Geo. Johnston, of Leslieville, occurred on Wednesday last after an illness of about three weeks. The funeral, which was largely attended was held on Friday at two o'clock from the Baptist Union Church. The pall bearers were Messrs W. L. McKinnon, Wm. Ruthford, E. N. French and S. Gormley. The sincere sympathy of the community is extended to Mr. Johnston and the children.

Mrs. Angus Martin Jr. and family are visiting with Mrs. J. Heilly. Mr. and Mrs. A. N. McKinnon are visiting in Red Deer.

Mr. and Mrs. J. Kulja which was held north of here on Friday last was very successful, the stock sold reasonably well considering that it was a cash sale. Mr. C. P. Dunham, the popular auctioneer, conducted the sale in a creditable manner. Mr. Kulja intends leaving for the States in a short time.

Mr. Oscar Foreman left here on Saturday for Toronto where he is attending the second year course at Veterinary College on October 1.

HALF AND HALF

The orderly officer was asking for complaints. Up sprang a private and said: "I've got a complaint, but I don't get my proper ration of butter. Officers as a rule don't like grumblers, and this particular officer was no exception. He pointed to a tiny morsel of butter sticking to the private's boot and said grudgingly:

"About fifty civilians were wounded by violent gunfire. The greatest indignation was caused, and the people demand reprisals. "The departure this morning of the first direct train for Konstantin, Transylvania, caused great rejoicing

APPLES, ORANGES, FIGS AND PRUNES

Are The Four Fruits Used In Making "Fruit-a-tives"

"FRUIT-A-TIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-tives because I have tried other remedies and they did me no good." On the other hand, the fact that "Fruit-a-tives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin. "Fruit-a-tives" is composed of the active principle of fruit and the greatest nerve tonic ever discovered. 50c. a box, 6 for \$2.50, retail size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

The Lake of the Woods

AT KENORA:—
(1) Yachting, (2) Diving and Swimming.
(3) A Regatta Day

THE Lake of the Woods, along the line of the Canadian Pacific, is a fascinating link in the chain of lakes between the boundless waters of Superior and the golden grain of Manitoba prairie.

With nature's own loveliness as a recommendation it stands unrivalled in the estimation of the many who yearly visit its island-crowned waters and plunge into the pure unadulterated delights which it affords.

Kenora, a town of growing importance in lumbering, mining, flour milling and fishing, possessing a population of 6,000, reclines on the north shore of the lake and holds the unique position of gateway to this attractive body of water.

Kenora, whose flour milling industry has made the name a household word in the Dominion, fringes the lake three miles distant. It is a mecca for the summer-seeker who has built his artistic and attractive home on its splendid shore line and on the islands adjacent.

For some 80 miles this richly adorned sheet studded with over ten thousand islands stretches along the border line between the provinces of Ontario and Manitoba and the state of Minnesota.

These water-girded bits of land vary in size from a few square feet to several square miles and are richly timbered with spruce, pine, birch and poplar. The northern portion of the lake covers an area of 2,600 square miles. From the middle of May until the end of October, the months are panoplies of beauty to the camper, the lake voyager, the sportsman and hunter who visit this aquatic wonderland, 1,077 feet above sea level.

A few car strokes from Kenora you can rough it in the woods or if you wish to enjoy life more leisurely, an up-to-date cottage can be secured.

Fishing is a very popular pastime for the men, women, and children each season. In the numerous nibbling preserves are found pike, pickerel, rock bass, trout, muskellunge and sturgeon.

During the autumnal months exciting raids are made upon the wild duck, geese, and partridge, while the deer and moose on the larger island stretches furnish an attraction of wonderful possibilities for the enthusiastic hunter.

Coney Island with a shore line of seven miles lies but a ten minutes' glide from Kenora. It is the summer residence of over three hundred people. It possesses a large natural park, a portion of which has been fitted up as playground for children. Kenora Park, a large wooded tract of land, has been set aside for pleasure purposes. Kenora Park Association Island is a much frequented spot and is open not only to Kenora residents but to the summer guests who come within her gate. Kenora Rowing Club and Kenora Yacht Club are the rendezvous of many from towns and the islands. Here the social side of life is indulged either by the weekly dance or the local water races. Regattas are held at intervals during the season, many outside events being entered from different portions of Canada and United States, a carnival of sports continuing several days. Steamers, launches, sail boats and various craft cruise about the lake daily and for a small fee the visitor can make a trip of several hours in and out among the islands of the lake. For a long cruise, the steamers "Kenora" and "Agawic" are well-appointed and commodious, leave Kenora twice during the week for Itanavor and Port Frances. The Steamer "Kathleen," a popular boat, makes a daily trip during the season to Minkit, Ont. It is a delightful trip of three hours down the Winnipeg river, returning being back to Kenora same day in sufficient time to permit the traveller to entrain for the east or west via the Canadian Pacific Railway.

Even when the summer is gone it is a great delight to visit the Lake of the Woods district in the Fall.

The Fearful "Tanks"

The New British Engines of War Described

The London Evening Standard gives the following details of the new armored cars used by the British on the western front.

Britain's latest weapon of war is nothing more nor less than a huge land ship fully armored and capable of travelling at fair speed over the shell-battered and cratered terrain of Picardy. Designed, as they are, to traverse the most difficult country and to sweep away all obstacles in their path, they naturally are of fairly large size, with caterpillar wheels constructed to cover the widest trench or shell hole and to enable the vehicle to tackle almost any depth of mire. Their crews are protected by varying numbers of armored plates, any one of which is impervious to machine gun or rifle fire as well as shrapnel bullets, and it is asserted that only a direct hit from a gun of large calibre could put one of these monsters out of commission.

"While from a defensive point of view they are almost perfect, their offensive qualities are even superior, and when they have cleared a trench of the enemy or have forced the survivors into the shelter of their dugouts, these land ships—"tanks," as the Tommies prefer to call them—have another little surprise in store for the beaten enemy, about which perhaps it were wise not to say more.

Most of the great engineering works in Britain claim a share in the production of these armored cars. They are built in parts at different factories in order to preserve the secret of their construction, and they are then assembled at a central factory under the supervision of experts of the armored car division.

Hall Caine, in a special article, says he has been told that if the Allies had 3,000 "tanks" the war would be over in a month.

Other writers say that the "tanks" smash trees and other obstacles to their progress, including wire entanglements, with the greatest ease. They carry both large and small guns, weigh over 400 tons, and have a speed of five miles an hour.

Two Colonels' Despatches

Credit for the new "travelling land forts" which have been used during the last few days on the British front belongs to two men, Lieut.-Col. E. D. Swinton of the Intelligence Department of the General Staff and Major Stern.

McClary's Kootenay makes good cooks

Is it the proper thing to ask a woman to tinker with a range? Is there any reason why she should have to juggle things about the oven to keep them from burning; or "coax up" a slow oven; or why she should struggle with cranky grates? And yet how many women have to work against such odds!!

There are any number of women who think they can't cook when the whole trouble lies in the poor ranges they are trying to use.

Let the same women have a Kootenay,—let them get rid of the mechanics of running cantankerous ranges,—and they will cook as well as the next woman.

Do you know enough about Ranges?

Our illustrated booklet explains clearly the features of fuel economy, of durability, and convenience, that have made the Kootenay famous. Mail the coupon to the factory. Just as a reminder to get your copy, tear out the coupon now.

DON'T FORGET THE BOYS AT THE FRONT

The Rexall Store

The Gaetz-Cornett Drug and Book Company, Limited.

Constance Collier in "The Tongues of Men" at the Lyric Friday night.

Mrs. L. Draper, of Calgary, is visiting at the home of Mr. Neil Raney and Mr. Roy Byers.

Mr. Raycroft, of Cardinal, Ont., is visiting at the home of Mr. Neil Raney and Mr. Byers.

The Salvationists and friends are looking forward to a real treat on the 15th of October, 1916, when Mrs. R. Millar, of Clive, is visiting Miss S. E. Peterson, and has also taken in the W.C.T.U. convention.

Rev. S. F. Huestis, D.D., on his visit to Red Deer, had the pleasure of baptizing his great grandson, Willie Macdonald, of Edmonton.

Mr. L. J. Porter succeeds Mrs. Greene as treasurer of the Lord's Day Alliance, Red Deer. Mr. Youmans is treasurer of the Bible Society.

Bagley & Common, the Arlington Livery men have joined hands with Parcher & Son and will conduct business from the premises of Parcher & Son in future.

Mr. J. Baile and Mr. C. C. Martin have returned from Niagara Falls, where they have been in attendance at the convention of the Mutual Life Insurance Co., of Canada.

The postponed country meeting of the Women's Institute will be held at the residence of Mrs. J. J. Huestis, at 4.30 p.m., weather permitting.

Mr. C. J. Hutter, of the Windsor, has received word of the death of his mother, Mrs. Thos. F. Hutter, at the extreme age of over ninety years. She died in Toronto and was buried in Petrolia.

A ten cent tea in aid of the funds of the Red Cross Society (Waskasoo School District Branch) will be held on Friday, October 6th, from 3 p.m. to 6 p.m., at the residence of Archdeacon and Mrs. Dewdney.

Mr. Jas. Robertson has arrived from Calgary to take the place of Mr. R. L. Hoskins, who was one of the travellers out of Red Deer for Campbell, Wilson & Horne, Mr. Hoskins is going to California.

The date of Trafalgar Day, October 21st, free and attend the monster auction sale in the Armories. A good time is assured. The Allies will be represented. The Band will play! Good things to eat! Saturday, October 21st.

The members of the W.M. Society of the Presbyterian church have received a kind invitation from the Baptist W.M.S. to meet with them on Thursday afternoon at 3 o'clock, at their regular monthly meeting in the Baptist church.

The Soldiers' Wives Club have changed their meeting from Thursday to Wednesday evening until further notice. The next meeting will be held at the home of Mrs. E. Clarke and Ave. South. Every soldier's wife is cordially invited.

On Thursday of this week at 3 p.m. the Baptist Mission Circle will entertain the Societies of the Methodist and Presbyterian churches in the Baptist church. The President, Mrs. Billinghurst, asks that the ladies will be present who can, in order to give the ladies of the visiting churches a good reception.

Mrs. Dr. MacCrosbie and Mrs. Cotton held their first reception since leaving to Red Deer at the home of Mrs. MacCrosbie. Quite a large number of the ladies gathered to formally welcome Mrs. MacCrosbie and Mrs. Cotton, and to enjoy their hospitality. Miss Laverne Young assisted in the reception.

The members of St. Luke's W.A. are starting a sewing circle to prepare for a bazaar to be held the last week in Nov. The members would be glad if all lady members of the congregation and their friends would come and help them. A ten cent tea will be served. The first meeting to be held on Wednesday, October 11th and each following Wednesday at 2.30 to 3 o'clock in the Parish Hall. The tea is open to all.

Commissioner and Mrs. Sowton will conduct a very special service in the Knox Presbyterian Church. The Commissioner has seen thirty-two years of service in different countries. He is quite familiar with a number of languages, and his work in India, Sweden and Finland has given him a large field to speak from. Mrs. Sowton, who accompanies the Commissioner, hails from Edinburgh, Scotland, and has travelled extensively with her husband. Don't fail to hear Commissioner and Mrs. Sowton.

The Lyric was filled on Wednesday evening last to hear "Oliver 666" by James Guy Usher and his company. The play was fairly well staged, but the room was limited for effect. The language of the policeman was fierce and would not be tolerated on an ordinary city force. That kind of hot stuff must be cut out if travelling shows wish to make a success of it in Red Deer. The heroine had a very tall and thin build at times. The story from the loving parts but altogether the play caused considerable amusement.

Another grand musical treat has been arranged for the citizens of Red Deer, the occasion being the visit of the world-renowned Russian Cellist, Boris Hambourg, accompanied by P. Roffers Hollnhauser, the celebrated New York Tenor and Gerald Moore, the brilliant young English pianist. These artists will appear in Red Deer on Wednesday evening, January 11th, on Tuesday evening preceding and on Wednesday evening following (Calgary on the following evening, so Red Deer will be the only other point on the C. & E. line at which they will appear). This is at one and the same time a compliment to the citizens of Red Deer as to their appreciation of the best in music and to the choir of the Methodist Church in their reputation for handling the very best to be heard, the offer of the engagement having been made direct to the choir by correspondence.

Sergeant Frank Whiteside died on Friday last and was buried at Innisfail on Monday.

Mrs. Reuben Geo left for Calgary Sunday last, to meet her husband, returning from the front.

Bishop Pinkham of Calgary, will preach at St. Luke's Episcopal church on Sunday evening next.

Mrs. M. A. Munro returned this week from a visit to the home of Mrs. who is teaching at Haynes Alta.

Word has been received from Lance Corporal Philip Galbraith that he is doing well, and recovering from his wounds.

Threshers lien notes (booklets), 30c each. Thanksgiving Post Cards 2 for 5c at John McVicar's. Agent for rider bonds stamps.

The Trinitarian Club will hold their second dance and social evening in the Parish Hall Thursday evening, October 5th.

Rev. Mr. Haldman, of Mirror, preached in St. Luke's church on Sunday. The Rev. Mr. Finn took the services at Mirror.

The Methodist Ladies Aid Society are having a chicken pie supper in the church basement on Tuesday, October 10th from 6 to 8 p.m. Come and bring your friends.

Mr. Thomas Peel, of Condon, was in town last week and purchased a new engine to thresh his hundred acres of grain which he has ready in the stock.

Mrs. G. W. Smith has word from Pte. Clare Smith, in hospital at Card, that he is improving, but all the shrapnel has been removed from his back yet and he has to keep pretty quiet.

The ladies of the Waskasoo School District Branch of the Red Cross Society will hold a tea on Friday next October 6th from 3 till 6 at the residence of Archdeacon and Mrs. Dewdney. Weather permitting.

Remember the meeting to-night for prayer and Bible study in the Baptist church at 8 o'clock. Study will be on the Divine love story in the third chapter of John. Come and take part. Bring your Bible and a friend.

J. A. Latimer arrived in the city from Sydney, New South Wales, on Thursday evening last. Mr. Latimer is head man for the Cuckshut Plover Company in N.S.W. and will return to the west in about a month's time. His old friends are all glad to see him looking so well.

The Sunday School Rally service last Sunday morning in the Baptist church was a huge success. The church was filled and the singing of the boys and girls was enjoyed very much. Come and hear them sing again at the Harvest Thanksgiving service next Sunday evening.

Mrs. E. McElroy, of Vancouver, B.C., announces the engagement of her eldest daughter, Margaret Dorothy May, to Mr. J. Garfield Gillespie, of Kamloops, B.C., son of Mr. and Mrs. Sweeney, of Gillespie, of Pictou, Ont. The wedding to take place on October 18, 1916, at St. John's Church, Vancouver, B.C.

Master-at-Arms Hadley of H.M.S. Shearwater would like to urge all men who have an inclination to join up with those recruited for the Navy during the past week, to make an early visit to Mayor Garwood, who will gladly do the necessary preliminaries of enlistment, and arrange for transportation to the Coast at times suitable to each man.

Geo. Wright, of the Wright Hardware Co. is some booster for Red Deer. The Calgary News-Telegram Monday said—"George Wright, merchant of Red Deer, was in the city on Saturday and reported that one wheat farm near his town was threshing 55 bushels of wheat to the acre. He is of the opinion that the wheat will average better than 30 bushels to the acre for that district."

Mr. Thornton, brother of Dr. Thornton is a visitor in the city, and though 70 years of age, made an effort to join up with the 187th. He was in the Penitentiary fifty years ago, being wounded at the battle of Red Deer where he was serving as a sergeant, being then 20 years of age. Three well-known local sports returned Saturday evening from a duck hunting expedition, the proud possessors of one solitary teal. As it happens a local butcher had displayed in his window some fine mallards. The hunters entered the store, and after telling the tale to the proprietor were seen to embrace each with a pair of mallards and a smile of much importance. This is a straight fact.

TRAFALGAR DAY OCT 21

The Women's Council are holding a monster Auction sale on Trafalgar Day, October 21st, afternoon and evening, in the Armories in aid of comforts for our soldiers in the trenches. Everyone, both in the country and the city, will be asked to contribute something. Solicitors will obtain the names of the next ten days. Should you be out, kindly communicate with Mrs. H. L. Gaetz for the country, and Mrs. W. E. Lord for the city. Let every man do his duty."

Pursuant to the directions of the Registrar, tenders will be received by the undersigned up to the 1st day of December, 1916, for the purchase of the Northwest quarter of Section sixteen (16), Township thirty-nine (39), Range two (2), West of the Fifth Meridian, in the Province of Alberta.

For particulars, terms and conditions of sale, apply to PAYNE & GRAMAM, C. Barristers, etc., Red Deer, Alberta.

Here is the Most Practical Washing Machine Made—Exactly What You Have Always Wanted.

The Maytag Multi-Motor Washer

Complete with Engine and Swinging Wringer

It is equipped with a light, powerful, compact little engine that does all the hard work of washing and wringing, and does a bigger, better, and cleaner washing in an hour or two than you can possibly do with a wash board and tub in a day's time. This washer takes up no more room than an ordinary wash tub and can be placed in the laundry, dining room, on the porch or out in the yard. It requires no belts, chains or pulleys, no electricity or water power and no waiting for the men to bring their engine from the barn.

Besides running the washer and wringer, the machine is equipped with pulleys so you can operate other small machinery such as churn, sewing machine, food chopper or anything else that does not require more than one-half horse power.

The MAYTAG MULTI-MOTOR WASHER is splendidly made of the best materials and is guaranteed against defects for a period of three years and this warranty covers the washer, wringer and engine. This is not an ordinary washing machine, but something new, with exclusive patented features that no other washer has or can have.

WASHDAY, and that is WORK-DAY, changed into PLAY-DAY. Good-bye backache, headache, nerve wreck! No woman need ever get the wash tub as her grandmother or old, nor turn the old-style washer as her mother did, if she has a MAYTAG MULTI-MOTOR.

Nearly FIVE HUNDRED of the Wide Awake, Up-to-date, Progressive Hardware and Implement Dealers in Manitoba, Saskatchewan and Alberta are selling this machine.
